Whereas, The present session of the 40th Legislature of the State of Texas has finally passed a bill—the purpose of which is to entirely exterminate the loan sharks from operating and preying upon the laboring people of this State in their exactions and extortions; and

Whereas, In many instances in this State the employer operating under rules and regulations intended to prevent their employees falling into the hands of loan sharks have found it necessary to discharge their employees where it was found that such employees had assigned their unearned wages; and

Whereas, The only security that many laboring men have upon which to borrow money is their personal integrity and their ability to labor and earn; and

Whereas, The enforcement of such rules and regulations by the employer in many instances result in penalizing said employees resulting in the loss of their position with great harmful results not only to said employees but to their families; and

Whereas, It is the sense of this Legislature that said practice of discharging employees for so assigning their wages should be discontinued

as an aid to the complete elimination and extermination of the loan Bowers 30 votes, Russek 1. sharks; and

Therefore, Be it resolved by the Senate of Texas, the House of Representatives concurring:

- 1. That it is the sense of the 40th Legislature of Texas that the practice heretofore indulged in of discharging employees for assigning their wages should at once be discontinued—thus aiding and assisting in the complete elimination of the loan shark business in this State.
- That a committee of five members of the present Legislature be appointed,—three to be appointed by the Speaker of the House of Representatives and two to be appointby the Lieutenant Governor, whose duty it shall be to make full and complete inquiry and investigation into the necessity for any additional laws intended to eliminate lcan sharks from Texas, and to make such suggestions as may be necessary of the passage of a law banking or loan proper whereby companies may be organized to operate in this State for the lending of money to salaried employees. Those engaged in agricultural pursuits under our present system of taxation are not only required to pay taxes on their equities but on that which they owe.

If all other property in Texas subject to taxation were rendered at its proportionate value as the lands of burden upon the agricultural interests would be reduced to a minimum benefit, is apparent to anyone. the annual toll of the tax gatherer would go back to the producer in order that he may at least have a portion of the prosperity that is due him.

Property in some localities is taxed at a minimum valuation, while in other localities land of law at its full valuation. Hence, it is my firm belief that the taxable such real estate is situated.

Highway Taxes.

Good highways are necessary for the reason that they are essential to a progressive civilization. They are the arteries of commerce. The transportation problem is vitally essential to the development of any community in this State, hence it becomes a public necessity that a system of highways be established and maintained, in order to permit the prosperity, well being and happiness of this generation.

There are two systems of highdesignated as the arteries of com-seriousness with which they are

I have become convinced, in the that the taxation of all real estate study of the tax problem, that the state should adopt some means of retiring local bond issues that have been authorized by various localities to build state highways and that the county or localities affected bear only its part of the highway tax that should be left entirely to be assessed is necessary to keep up the county tions and interests that have an in- could be easily provided for by us-This would apply ing a portion of the gasoline tax, not only to railroads, bridges and and if necessary raise the gasoline ferries but to telephone and tele- tax so that these bonded obligations graph companies, pipe lines, and all of the county to establish highways other character of properties that be not thrown upon the individual have an intangible value. Practically the total amount necessary to run the expense of the county or local government is paid through direct taxation. Your Excellency in your message to the Legislature of yesterday most properly states "that the field of economy lies between the extremes of profligacy and waste on the one hand and ways in vogue-the county system parsimony and niggardliness on the and the state system. The state other" and that "considering the highways are those that have been demands that are made and the less danger of parsimony than there is of the other extreme". Sadly true we are always too generous. cry "raise the rate" to the constitutional limit is often made without thought and consideration for those who already are over burdened with taxes. Our delinquents as shown by our Comptrollers reports are multiplying in an alarming way and we should pause and consider whether it would not be far more just, even if not as easy, to first aid in the more equal distribution of the burden before we advocate the increase heaviest taxed people on the face of of same.

Administration of the Tax Laws.

It has often been said that a good law poorly administered was worse than no tax law at all. It matters not what kind of a tax law, reforming our present antiquated system, is adopted by the Legislature, if some adequate and efficient system of administering it is not also enacted and means given for administration, it will not be producive to the ends sought, and the relief desired cannot be obtained.

Conclusion.

The question of taxes had long been one of the most vexatious questions that has confronted every government known to the history of It has been at the bottom of practically every revolution and almost every great war. It was the primary cause of the last great war that destroyed ten million people, bankrupted nation after nation, and caused the expenditure of more than five hundred billion dollars. A favored Arch-Duke, belonging to the favored tax emempt class of citizenship, flaunted his wealth and splendor in the faces of tax-ridden Bosnia, whose people had been almost reduced to serfdom, in their cents, and madness and desperation killed the Arch-Duke; hence the awful holo-|rate in Louisiana for two hundred caust started, and, like the prairie miles or less is \$2.20 and the mini-

> The tax problem is at the bottom of the present revolution in China. That country has been struggling with the tax problem for more than 4000 years. A careful study of the history of that country on the question of taxation will disclose the fact that much of the experimental regulations that we are now engaged in in this country has been tried and tested in China, one of the oldest civilizations known to mankind.

> The American people are the the earth, and the burdens of government have been shifted from the organized class to the unorganized class from time to time until we fear that after awhile the people will rise up in their might and repudiate not only the obligations that have been assumed by them, but those who are responsible for bringing about the condition which exists.

Railroad Commission of Texas, Austin, Texas, June 6, 1927. Hon. Barry Miller, President of the Senate.

My Dear Mr. President:

A copy of Senate Simple Resolution No. 34, by Senator Fairchild has been presented to the Railroad Commission.

This resolution refers to and requests information concerning certain differences in the sleeper fares charged within the State of Louisiana and those charged in the State of Texas. We quote that portion of the resolution and the inquiry with reference to this matter as follows:

"Whereas, The sleeper fares in Texas have increased very materially in the last few years, and

"Whereas, There is a vast difference between the sleeper fares in Texas and Louisiana, and

"Whereas, The minimum sleeper fare in Louisiana for day rates is thirty-six cents and the minimum day rate in Texas is seventy-two

"Whereas, The minimum night

mum sleeper night rate in Texas is \$2.75, and without naming all the distinctions and differences which are many, and

"Whereas, The people of Texas are anxious to know the why and wherefores of these distinctions,

Therefore, be it Resolved, That the Texas Railroad Commission look into these various differences and advise the Texas Senate as to why the differences, the cause for the differences and whether or not they can be adjusted in the interest of the people of Texas. And it is further resolved that a copy of this resolution be sent the Railroad Commission of Texas."

The Railroad Commission of Texas has no jurisdiction over sleeping car companies, for which reason their tariffs are not on file with us and we are therefore unable to check officially the rates referred to in the resolution. For the same reason we are not in a position to check the sleeping car rates referred to in We are able, only, to Louisiana. illustrate the situation by comparing given points in the respective states. For example, we are advised that the rate from Shreveport, La. to New Orleans, La. is (or was on September 24, 1923, the date of the information from the Louisiana Public Service Commission to this office) two dollars (\$2.00) with a surcharge of one dollar (\$1.00), making a total net rate between the two points of three dollars (\$3.00). We assume this is the rate at present, as we know of no change in sleeping car fares since 1923.

The night rate for an all night ride on a sleeper in Texas, say for example, Austin to Dallas, or Austin to Houston or Beaumont, is two dollars and fifty cents (\$2.50) sleeping car charge and a surcharge of fifty per cent of that, making a total charge of three dollars and seventyfive cents (\$3.75) as against three dollars (\$3.00) for the same ride in the State of Louisiana.

The resolution asks the Railroad Commission to look into these various differences and advise the Texas Senate as to why the differences and the cause for the differences and

night ride being from two dollars (\$2.00) to two dollars and fifty cents (\$2.50) for a lower berth. That increase went into effect in Texas as it did in many other states. The Railroad Commission of Texas has no jurisdiction over sleeping car fares and therefore was not called upon to either approve or disapprove the proposed increase.

The fifty per cent surcharge granted the railroads by the Interstate Commerce Commission, allowing the railroads to charge fifty per cent of the sleeping car fares in addition to the regular passenger charge, commonly known as the surcharge, adds one dollars and twenty-five cents (\$1.25) to the sleeping car fare, making a total cost of three dollars and seventy-five cents (\$3.75) to the passenger for the use of a lower sleeping car berth instead of three dollars (\$3.00) as in Louisiana. The Public Service Commission of Louisiana has jurisdiction over sleeping car fares intrastate and refused the increase in sleeping car fares from two dollars (\$2.00) to two dollars and fifty cents (\$2.50.) The surcharge put on by the Interstate Commerce Commission went into effect in Louisiana as it did in Texas, but fifty per cent of the two dollar (\$2.00) charge made only one dollar (\$1.00) surcharge, which added to the two dollar (\$2.00) sleeping car fare makes a total of three dollars (\$3.00) instead of three dollars and seventy-five cents (\$3.75.)

The Railroad Commission of Texas on December 22, 1906, by order duly entered (Sixteenth Annual Report of the Railroad Commission, page 319) undertook to assume jurisdiction over sleeping car companies in Texas under the law giving the Commission jurisdiction over railroads. in which proceedings the Commission ordered sleeping car fares reduced twenty per cent. The Pullman company filed suit to enjoin the enforcement of the order, on the ground that the Railroad Commission had no jurisdiction over sleeping cars in The Circuit Court of the Texas. United States for the Northern District of Texas granted the injunction whether or not they can be adjusted and the case was appealed to the in the interest of the people of Texas. The minimum seat fare in sleeping cars in Texas is fifty cents (50c) at this time with a surcharge of fifty per cent or twenty-five cents (25c), making a minimum net cost for a seat in a sleeping car in the daytime of seventy-five cents (75c). We are unable to ascertain what the minimum seat charge was prior to the increase in sleeping car fares in 1920 and the application of the surcharge. We are likewise without information from which we may check the seat charges in Louisiana at this time.

Under existing law we know of no action the Railroad Commission of Texas can take in this matter.

Trusting this is in full response to your inquiry, and assuring you if it is not, the Commission will be glad to give any further assistance possible, we are,

> Yours very truly, RAILROAD COMMISSION OF TEXAS. By CLARENCE E. GILMORE. Chairman.
